### **DETAILED ACTION**

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action or the MPEP.

#### ***Information Disclosure Statement***

The prior art considered in the parent application, now US Patent 6,678,556, has been considered herein. Also considered is the prior art in USSN 10/233,007, US Patent 6,654,636 and US Patent 6,697,669. If applicant wants a listing of that prior art to appear on the face of any patent issuing from this application, applicant should submit a PTO Form-1449 with a listing thereof. Copies of the prior art are not necessary.

#### ***Specification***

The disclosure is objected to because of the following informalities: The "Related Applications" section of the specification needs to be updated. Appropriate correction is required.

#### ***Claim Objections***

Claim 3 is objected to because of the following informalities: It is dependent on claim 3. The claim will be examined as if it depends from claim 2. Appropriate correction is required.

#### ***Double Patenting***

Claims 1-3, 6-38 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-38 of U.S. Patent No. 6,678,556. Although the conflicting claims are not identical, they are not patentably distinct from

Art Unit: 3767

each other because the claims of this application encompass and/or overlap the claims of the parent.

***Allowable Subject Matter***

Claims 1-3, 6-38 would be allowed if a terminal disclaimer as suggested above were filed.
